

I Am Becoming: A Decision

**A Collective of Real Stories.
Real Growth. Real Becoming.**

Becoming is not a destination. It is a decision.

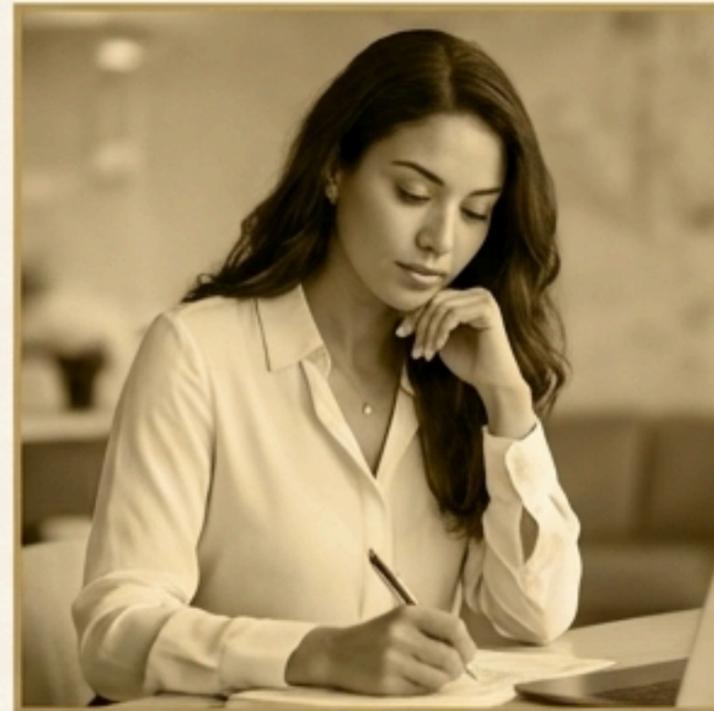

This anthology captures the in-between moments: the shifts, the awakenings, and the messy, honest middle.

**Focus: Transformation over
Trauma-Dumping.**

Now accepting 20 thought leaders.

Share the story that changed you.

Authenticity Over Perfection

Be Honest, Not Performative

Share from lived experience, not just theoretical expertise. Readers connect with the human behind the title.

Vulnerability

We value the struggle as much as the success. The magic is in the messy middle.

Meaning, Not Trauma

Focus on transformation. The story must drive toward meaning, legacy, and a lesson for the reader.
